

Steep cliffs, wild nature and exciting wildlife are what await you in the Faroe Islands. This untouched paradise is perfect for all nature lovers.

This tour can be offered after summer season, but with a small amendment:

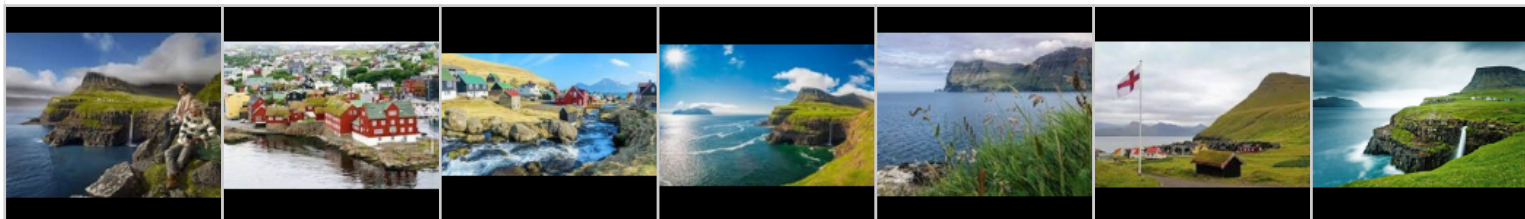

Sandoy – the sand island - or the North, where the landscape is different, and the James Bond movie was filmed.

You can also visit Vagar, which is where the airport is, or go for a hike around the hanging lake.

The tour to Mykines is not available outside of the summer season. This is because it is a bird island, and no birds are present after the summer. This night will be offered somewhere else.
